SUBJECT: Removal Of Training Providers

WIAB 1-04

The U.S. Department of Labor's onsite review conducted September 2003 pointed out the State's need to gather refund policies from all ITA providers.

A letter was sent recently to all training providers, where there was no refund policy on file, or their refund policy had expired. All providers, except six, responded.

Six providers will be removed from the Eligible Training Provider list immediately, and have been notified of such action. Provider names will be added to the list once again immediately upon receipt of the refund policy.

Please refrain from referring and issuing vouchers to any of the six providers listed below effective immediately.

- Vogue Beauty School
- Head Master School of Hair Design
- Action Flying Service
- Aero Technicians
- McGillivray Environmental
- Success Institute
