**03. AVERAGE WEEKLY WAGE.** For the purpose of establishing the maximum weekly benefit amount, under Section 72-1367(2)(a), Idaho Code, the average weekly wage is computed by dividing the total wages paid in covered employment (including State government and cost reimbursement employers) for the preceding calendar year, as computed from data reported to the Department of Labor by covered employers, by the monthly average number of workers in covered employment for the preceding calendar year and then dividing the resulting figure by fifty-two (52).
