

Claiming Unemployment Benefits on Your Taxes

ABOUT YOUR 1099-G TAX FORM

Q. Why did I get a 1099-G tax form from the Idaho Department of Labor?

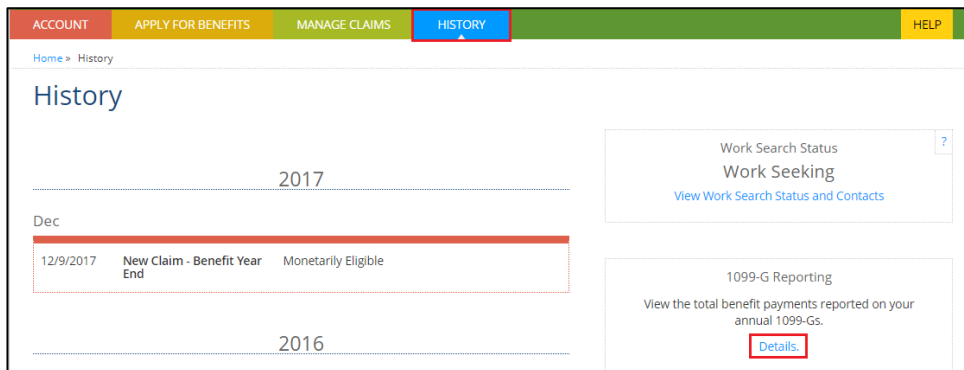

A. A 1099-G form is a summary of your unemployment insurance benefit payments. You were mailed this form if you collected or repaid benefits the prior year. The 1099-G form shows you the total taxable amount on the benefits you were paid in that calendar year.

Q. Are unemployment insurance benefits taxable?

A. Yes, unemployment insurance benefits are taxable. Benefit payments are reported to the Internal Revenue Service (IRS).

Q. How do I request a 1099-G if I lost it?

A. First, verify your identity with ID.me. Then, you can access the last five years of your 1099-G forms on the Claimant Portal. To access and download these documents, click on the *HISTORY* tab. Then select *Details* in the 1099-G Reporting tile.

Note: You must verify your identity through ID.me. First, set up an ID.me account if you don't have one. There is a link to an ID.me guide on the Claimant Portal.

Q. How do I request a 1099-G for past years?

A. You can view 1099-Gs for the past five years online at labor.idaho.gov/claimantportal.

A. You may choose to have 10% of your benefit payment withheld for federal taxes. Idaho Labor can't withhold state taxes.

Q. What if I disagree with the amount listed on my 1099-G?

- A.** Benefits are reported based on the date the payment is sent, not the week ending dates. Before contacting us, view your payments by logging in to the Claimant Portal. Click on *MANAGE CLAIMS*. Then view payment information in the *Weekly Certifications* table. Review your payment summary. If you still disagree with your 1099-G or you didn't apply for benefits, call us at 208-332-8942.
